

CleanCert's testing standards for all of our products:

- File Holder for the active ingredient (*“Active chlorine generated from sodium chloride by electrolysis”*) on ECHA's Article 95 list of the Biocide Product Regulations (BPR)
- BS EN 1040 - Quantitative suspension test for the evaluation of basic bactericidal activity of chemical disinfectants/antiseptics. For chemical disinfectants and antiseptics.
- BS EN 1276 - Quantitative suspension test for the evaluation of bactericidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic and institutional areas.
- BSEN 1650 - Quantitative suspension test for the evaluation of fungicidal or yeasticidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic and institutional areas. For chemical disinfectants and antiseptics.
- BS EN 1656 - Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of bactericidal activity of chemical disinfectants and antiseptics used in the veterinary area.
- BS EN 13624 - Quantitative suspension test for the evaluation of fungicidal or yeasticidal activity in the medical area
- BS EN 13697 – Chemical disinfectants and antiseptics. Quantitative non-porous surface test for the evaluation of bactericidal and/or fungicidal activity of chemical disinfectants used in food, industrial, domestic and institutional areas
- BS EN 13704 - Chemical disinfectants. Quantitative suspension test for the evaluation of sporicidal activity of chemical disinfectants used in food, industrial, domestic and institutional areas
- BS EN 13727 - Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of bactericidal activity in the medical area
- BS EN 14204 - Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of mycobactericidal activity of chemical disinfectants and antiseptics used in the veterinary area
- BS EN 14348 - Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of mycobactericidal activity of chemical disinfectants in the medical area including instrument disinfectants
- BS EN 14476 - Chemical disinfectants and antiseptics. Quantitative suspension test for the evaluation of virucidal activity in the medical area
- BS EN 14561 - Chemical disinfectants and antiseptics. Quantitative carrier test for the evaluation of bactericidal activity for instruments used in the medical area.

- BS EN 14562 - Chemical disinfectants and antiseptics. Quantitative carrier test for the evaluation of fungicidal or yeasticidal activity for instruments used in the medical area
